Comments: Upon my arrival at the robot, I found two women seated at the location. They did not have any animals with them. I approached them and enquired whether they knew of the alleged male individual who had been reported to be selling puppies at the robot. They informed me that there is a man known to them as Loyiso, who is frequently at the robot with an adult dog and a puppy. They stated that they were unsure whether he sells the puppy, but confirmed that he had been at the robot not long before my arrival and had likely walked further up Ocean View Road .

I proceeded to search the surrounding area for approximately 30 minutes, driving around the vicinity, but was initially unable to locate him. As I returned to the robot, just before ending my search, I observed the male individual standing at the robot with a trolley, accompanied by a brown female adult dog and a fawn crossbred puppy, approximately three months old.

I introduced myself to him and stated the reason for addressing him. He denied selling the puppy and claimed that he "scurrls" with his dogs, stating that he walks everywhere with them and obtains most of his food at the robot. I informed him that his conduct was illegal and that he may not scurrel, beg, or loiter at the robot with the dogs. I instructed him to disperse from the area immediately and advised him that, should I find him at the same location again, his dogs would be confiscated.

The man complied and left the area with the dogs. However, based on his behaviour and prior reports, I believe he may return to the same location. I will therefore need to address the matter further when I have proper backing on Tuesday for enforcement action .
