Comments:	I called Wendy. I explained my reason for the call. She told me that she has been away on a business trip and and son didn't relay the message well. She told that she temporarily gave the dog to her uncle Lumko (0607442277) whi lives in Langa to look after the dog as she was traveling a lot and he is close to the vet where Rocky was being treated. When she came back from her trip, her uncle told her that Rocky had run away. She doesn't believe him and would like us to go inspect his house and maybe find out what really happened to her dog. She asked me to call her back tomorrow to get his address as she doesn't know it, she just knows hiw to get there. Follow up 04/02/25 Ayanda Ngcofe 2025-02-03 13:04
