Time:	13:49
Inspector:	JACO PIETERSE

Type:	DOCKET DISCUSSION
Follow-Up Date:	
Comments:	Jaco and Werner discussed the case. The Inspector saw the dog and gave a 24 hour warning, which means the Inspector thought it was not that severe that the dog would die. We cannot expect the owner to assume any better. The owners intention was to take the dog to TEARS for treatment the following day. If the dog was that sick, then the Inspector should not have issued a warning and should have taken action. No prospects of a successful prosecution. NFA - close the case
