Subject: Re: Animal abuse

Good afternoon

I know that last we spoke on this case the investigation had happened and the owners needed to start taking better care for the animals

I also saw they did do a second check but i would like to inform you that the dogs have been whining for about three days straight so far now this week. Quite often than not the dogs will cry and whine then fight with each other and become violent with their environment, i mainly hear a gate rattling. Then a man yells at them to shut up and they quite down for a bit

If i need to send an audio recording for how bad it is for proof i can because i genuinely am worried for these dogs now even after the owners went through all this

Regards

Amythest R.
