Comments:	Voice notes from Ingrid and the next-door neighbour, Rowan, are attached Ingrid would like us to persuade the owner to surrender his dog, as they believe it is being softly abused. She stated that the dog is confined inside the property 24/7, is never taken for walks, and is used solely for the son's entertainment. They also suspect the son may not be mentally fit to care for a dog. Additionally, Ingrid and Rowan have been providing the dog with food and water daily. Ingrid requests that the inspector contact Rowan before returning to the property so he can provide further details on the situation. Rowan – Badger – Skip +27 82 791 0359
