Comments:	Upon arrival I met with Mr Haider at the cellphone shop next door. He informed me that he is no longer the manager of the pet shop and he has no connection with that shop anymore. I informed him that should that be the case, he still needs to get a business license in place for the cellphone shop as well. He told me that he did try but the city offices said that the cellphone shop does not require a license. I told him I'll double check that but he must also go inquire by the council office in Plumstead . When I went next door to the pet shop, I met with Sandra Rodrigues, the new manager of the shop. She informed me that she doesn't know what's going on with the business license of the shop but she has agreed to undertake getting it with the owner. She also gave me the owner's name, which she knows as Ali, and his cellphone number. I thoroughly explained to her that they will need to go to the council office and enquire about applying for a business license , a food premises health certificate and they must install fire extinguishers as per the business regulations. I informed her we will be following up to see the progress.
