Comments:	Called the complainant. Call rang and then went to voicemail, prompting me to leave a message, which I did...I asked the complainant if she was able to find out more about the poisoning and also if the body corporate had an email address so that we could send them a warning wrt the poison and or baiting station options. Once I had completed my message: I was prompted to enter my personal pin code...so I don't know if the message went through
