Street: 8 OUDE MOLEN ROAD
Suburb: NDABENI
Postal Code: 7405
Date: 2025-02-28
Time: 16:03
Inspector: NICOLE VENTER

Type: EMAIL - RECEIVED

Follow-Up Date: 2025-03-03

Comments: Whilst I was on leave, Louis Joubert from Dogs and All (Service Provider for Bamogale Security Solutions) sent an email with a vet report attached. The vet report is from Groenkloof Diereklíníek. The report mentions severe degeneration of the dog's femur heads "Under general anaesthesia x-rays were taken and the following was found:

1. Severe degeneration of R/femur head and neck as well as osteophytes.
2. Severe flattening of R/femur head.
3. Dorsal bone loss on R/femur head
4. Mild flattening of L/femur head with osteophytes
5. Bone loss on dorsal aspect of L/femur head". I was very upset reading this report. The dog's condition would have caused pain and it was chronic and should have been picked up earlier. The report states that the dog was unfit for work and was euthanased. Even though the dog has now been euthanased, I'd like to further address the fact that her condition should have received medical treatment earlier. This weekend I will draft a 2nd warning or letter to be sent and as Rudi has suggested, we will have to inspect the holding facility for Dogs and All. I will ask Jaco to review my drafts on Monday and for them to be sent on Monday. At least the dog has been euthanased and is no longer suffering. However, concerns still need to be addressed in writing.
