Comments: Hi Rudi

I have started working on this warrant application, but I am not convinced that we can get a warrant. The dog that is underweight looks in better condition now that the previous visits (unless it is not the same dog). There is nothing wrong with the black dog. I am not convinced that we can remove the dogs based on the property condition as it is clean around the rubble. The owner fixed the shelter.

I suggest Jeffrey calls the owner to ensure he is home and do another inspection and address the issues with the owner. Issue a final warning if needed and give a few days to acquire another shelter.

Kind regards
