Comments:	After receiving a massage from Peace, the massage was from Chad and he requested me to call him, then I returned his call. Chad told me that, the dog is back on site, and I need to come to fetch the dog before any of the stuff decided to take ot home, he mentioned that the situation of the dog was deteriorating. Then I proceeded to the site, where I have called Chad to let him that I was outside, he then instructed the security officers to bring the dog to me, on the dog I have noticed that abscess on his nose bursted, the dog was still appeared to be thin, appeared to have yellow discharge. then with the security officer Ernest Skippers we did the admission form . I took the dog to SPCA and I requested a vet report just in case some come to claim the dog. The admission was A 57814. Follow up in 7 days.
