Comments: received a call from Mr. Duane-0824748854 (seizure ntc- 02303) who stated that his not the owner of the puppies anymore as the puppies all have homes already and the new owner wants to claim them, he wanted to know the size of the kennels which the dogs are kept in and who is ensuring the welfare of the dogs, I explained that the kennels are variously sized but are big enough for the animals to move around in possibly 2x2m however I stand under correction, he asked that I take photos of the puppies in question and I said I could not as I work in the hospital department and is not allowed to leave my desk, he then said can't I take it during my lunch hour and I said no I do not spend my lunch in the hospital department- he then asked if he can come to see the dogs now this morning which I told him that I would have the supervisor on duty call him about that information. he also mentioned that SPCA took his dogs unlawfully and we took the dogs for financial gain he queried why we seize dogs I gave him an example of if the owner is maybe beating the dog or being physically cruel to the dog then we can seize the dog as evidence of that cruelty or if the owner refuses to take the dog for treatment when requested by the inspector then we can seize I explained there are many reasons for the seizure to happen as he claims SPCA took his dogs for our own financial gain . Duane also asked that either Moyo or Jaco give him a call. after Duane asked who is ensuring the wellbeing of the dogs I explained that the dogs are in the hospital and there are the nurses, vets, and orderlies that do their rounds on a daily basis to give the animals treatment if needed food, water and that kind of things ensuring they are comfy as well, however, I feel like he might come to the hospital department to visit the puppies and say that I told him that he could visit them as he took down my name and sounded like he was writing the details down on a page because as i was talking he softly repeated what i said had a pause then said okay and carried on with his other questions.
