Bella, an intact 10 year old female white & black pitbull presented to me at the Village Vet Animal Clinic in Atlantis on 18/03/2025 with an ulcerated bleeding infected mammary gland tumour the size of a tennis ball. I explained and offered surgery to client, Ms Olivia Kraak of 31 Louwskloof, Mamre but she declined due to financial constraints & given Bella's age and the high probability that the cancer can recur or possibly could have metastasise already the owner decided & asked for humane euthanasia which I performed and she will be communially cremated through Legacy.
Dr Annelien Moss BVSc
