| E-mail/s: moeniervardy@swissport.com       |                                              |

### 2. INITIAL OBSERVATIONS

|                                                                 | Yes / No | Comments            |
|-----------------------------------------------------------------|----------|---------------------|
| 2.1 Are AVI personnel available at all times?                   | Yes      |                     |
| 2.2 Are personnel familiar with the disaster plans for animals? | Yes      | See comments below. |

### 3 ANIMAL AREA

|                                                                                                            |  |  |
|------------------------------------------------------------------------------------------------------------|--|--|
| 3.1 Are live animal shipments placed within the designated area?                                           |  |  |
| 3.2 Is the area kept clean and hygienic?                                                                   |  |  |
| 3.3 Are bird shipments placed on shelving?                                                                 |  |  |
| 3.4 Are the animal crates turned away from warehouse activities?                                           |  |  |
| 3.5 Are the animal crates placed in such a manner to ensure that 'natural enemies' do not face each other? |  |  |

### 4. HANDLING

|                                                                                                                       |  |  |
|-----------------------------------------------------------------------------------------------------------------------|--|--|
| 4.1 Does staff handle animal shipments with care and consideration?                                                   |  |  |
| 4.2 Does staff appear to be adequately trained?                                                                       |  |  |
| 4.3 Are animal shipments booked in at appropriate time to avoid unnecessary long waiting hours?                       |  |  |
| 4.4 Was any animal shipment accepted that was not IATA compliant?                                                     |  |  |
| 4.5 Does staff act appropriately when sick or injured animals are present?                                            |  |  |
| 4.6 Does staff act appropriately when an animal shipment is delayed for whatever reason? (including overnight delays) |  |  |

Any shipments inspected

Yes \*

\* See attached Airport Inspection Checklist for Live Animal Shipments

**Comments and action taken by Inspector:**

Upon my arrival, I caught Moenier walking out. I asked if he managed to confirm that the AVI was in the disaster plan. He confirmed that it was not included on paper but that he'll escalate it and that if anything happens, the staff automatically consider the AVI Room, such as evacuating animals to the emergency meeting point if necessary. No animal shipments were inspected as the AVI Room was empty.
