Follow-Up Date:	2025-03-26
Comments:	We received a complaint from the Kuilsriver Court regarding animals kept at this address . Upon previous inspection by Inspector Lee, he found four Boerboel type dogs at the premises. The person who brought it to the courts attention provided us with a statement which is attached to this case. She also stays on the property and alleges that when Inspector Lee went to the property previously, that some of the animals had been hidden. She states that there are 16 dogs on the property. Of which, we only saw 4. I request that we apply for a warrant to search the property to ensure that no animals are hidden from us again.
