It has come to my attention that the owner Rameez fights with people in the area an makes his dog fight with other dogs. These dogs do not eat everyday an they lie saying they do feed the dog but there's no signs of bought chunks or cooked meals. You guys should ask to see proof of food . These dogs have become to hungry that they tend to attack the tenants that reside on the premises. The house is filled randomly with random druggies constantly an These dogs are used for protection to fight and not eat. I trust you will attend to this an get these dogs removed.as people from the spca has already come but there wasn't no positive outcome regarding this becos the dogs are still in the same predicament that they were in when I first complained.
