Postal Code:	8001
Date:	2025-03-11
Time:	14:13
Inspector:	TREVOR RODNEY

Type:	CALL RECORD - MADE
Follow-Up Date:	
Comments:	I called the respondent and he informed me that Violet is still on the farm with his mother and the cara hair is growing back. He told me that they have introduced fish to her diet which appears to be helping - no skin allergies observed. His mother used to breed cats so she is very aware and capable looking after the cat. He sent me a recent photo of the cat and you can see where the hair is growing back on the tail area. Case can be closed as respondent has complied and the cats hair is growing back.
