Please describe the concern you have

This house has 4 great dane dogs. I found 2 of them running in Setlaars Street last nite and battled for more than half an hour to get them. They were very scared, seem underfed in my opinion and have no road sense. The owner made no attempt to assist in getting them back indoors. On speaking to the neighbour across the road from where they live I was advised that the neighbours have reported the problem to the SPCA who have apparently come out but nothing has been done. According to the owner she told me when I got the dogs back that her electricity and water has been cut and there is no food. The neighbour advises she has asked them for water and dog food. The dogs are scared and I believe she screams at them all the time. There does not seem to be any kennels for the dogs but I cannot say as I could only get to the gate of the premises and the stench coming from the property is disgusting. I cannot understand how somebody living in these conditions has 4 great dane dogs who clearly cannot be cared for. They are not used to a leash as they never get taking for walks. I would appreciate if there could be some intervention in this matter and a proper investigation done. These dogs deserve better!

Thanking you in advance
