Are AVI personnel available at all times? Yes

Comments William Baloyi is always here when I conduct my inspections.

Are personnel familiar with the disaster plans for animals? Yes

Comments If the animals owners can't be reached, they get the state vet out. Fire plan is as usual - gather animals and meet at rally points.

Were any animal shipments been inspected? No

Photos taken No

Warning Issued: No

Comments and action taken by Inspector: William os looking to get rod of the crates in the room and will consider donating them to the SPCA. I spoke about an old crate containing old food and miukd but it's not actionable as there are never any animals during my inspection. Regardless, William will have it sorted in case the room gets used sometime in the future. Inspection concluded at 14:48
