

INSPECTOR NOTE

Building:	MITCHELL'S PLAIN COMMUNITY HEALTH CENTRE
Street:	FIRST AVENUE
Suburb:	BEACON VALLEY
Postal Code:	7785
Date:	2025-03-04
Time:	12:18
Inspector:	JEFFREY MFINI

Type:	CAT TRAP
Follow-Up Date:	2025-03-05
Comments:	On my arrival to inspect the traps at the clinic, I met with the security who allowed me onto premises, there was no cat into the trap, and it was ready to catch the cat, the security claimed that Tracey came yesterday at approximately 15h30, then I set up the trap and requested the security to give me a call as soon as the cat is into the trap. I find it to be difficult to work with Tracey, as she do as she want on the traps, when I set the trap, I always make sure that, there is water and food into the trap, i don't think the cat can die within few hours into the trap, especially when there is water and food inside the trap, however, when it comes Tracey, we need to sit and wait until the trap catches the cat and immediately we needs to remove the cat, it looked like she forget that, we have the other emergencies to deal with. I would like her to back off on this trapping as she is a really distrusting me. Then I proceeded to the Police station, where I have noticed that the trap was not set up, the food was already given to the cats, it was pointless to set up the trap, it will need to be set up tomorrow
