Good morning, Tracey,

I hope you're doing well.

Inspector Mfini will be visiting the property this morning. He mentioned that during his visit yesterday, no cats were found in the traps. He will discuss the next steps regarding the trapping process.

Kind regards,

Inspectorate

Subject: cat traps

Good morning Moyo

Kindly advise if someone will be calling to fetch the cat trapped on wednesday

Also it was discussed with the visiting inspector that tnr was probably not the best solution here as in 3 months there will be nobody to continue with feeding, unless you have an alternative idea or someone you know to continue in this area. (There are still at least 5 more cats here that I am aware of)

It is also likely there will be another trapped this morning, as they are hungry and I have put food in the trap today.

pls advise urgently

thank you
Tracey
