Street: FIRST AVENUE
Suburb: BEACON VALLEY
Postal Code: 7785
Date: 2025-03-07
Time: 12:20
Inspector: JEFFREY MFINI

Type: CAT TRAP

Follow-Up Date:

Comments:

I went to the clinic to inspect the trap, I found nothing into the trap, and the trap was closed, the food that I placed yesterday was no longer into the trap.

Then I told the security that, I will be taking the trap, as it is Friday, he agreed.

I proceeded to the Police station to inspect the trap, I found out that the trap was also not set-up to catch the cat, it was into the Captain's office.

Then I moved on with my cases, after 30 minutes, I received a WhatsApp message from the security who is working at the clinic, he was told by Tracey to tell me to come back to the clinic as soon as possible, I responded by saying, I have few cases that I am dealing with, I will come when I am done with the cases.

After finishing with cases that I was dealing with by that time, I went back to the clinic, where I met with the security, the security went to call Tracey, he came back to tell me that she is gone.

Then I went to the Police station to fetch the second trap.

While I was fetching the trap, I received a WhatsApp message from Control about the trap and the cats that I need to fetch it in Tracey's office, on my arrival at the clinic again Tracey was not there and there were no cats.

I brought both traps with no cats.

I also spoke with Emma, who said, we need to stop trapping until the further notice.
