Inspector:	NICOLE VENTER

Type:	CALL RECORD - RECEIVED
Follow-Up Date:	2025-03-10
Comments:	The owner of Westridge Pets & Aquatics called me this morning (from 062 650 7615) to provide me with feedback. He said he'd be at the shop today if I came for my follow up. I explained that even my follow up inspection would have to be unannounced which he said he understood. He said that he has complied with the warning and hopes I will be satisfied during my follow up. He said he always tries to keep the SPCA happy and used to work with Connor. He explained that he had excessive stocking densities because a pet shop in Parow recently closed and so he took in the fish and the budgies to try and sell the stock for such pet shop. He also told me that he removed the white budgie off display and that the budgie is eating and p-perching well. He said he has started giving the budgie protexin soluble and doxy bird as its faeces appeared loose. He said other than that, the bird isn't struggling but that he'd call me if the condition worsened and would sign the bird over. I am still working on my inspection schedule for this week and will update the follow up date today.
