Comments:	feedback provided to compl who was not happy with the findings of spca as she claims hopw can the inspector say the dog is fine when she deals with animal welfare and the dog is clearly underweight to her and she says she cant believe that spca is sweeping things under the map because in december the dog couldnt walk and she has been the one feeding the dog all the time, i asked her if she can provide us with a recent photo of the dog as she says the bones are showing and the ribs are showing, she also thinks the house is a holiday house.
