Comments: On Wednesday, Kasheifa sent me a voice note stating that she found a 2nd mother with young in the tak and asked me to advise. I asked her to send an overall photo of the hamster tank and clarify if the mothers or babies were in seperate spots of the tank. I also advised that she must wait to see them feedign off the mothers but that if she can't tell, she'll have to keep the mothers toegther and just remove them from the other hamsters. I will follow up with her again this afternoon.
