Comments:	I called the respondent on given cellphone number and he informed me that he has 2 digs and that I'm more than welcome to have a look at them. I asked him if there are cats and he informed that there was a guy who had 4 cats 3 digs and a parrot who unfortunately committed suicide this weekend and I might be looking for that property as the 2 properties had been split apart. He gave me the owner of the property number by the name of sue Hickman 0767898815, I'll call her and make an appointment with her about the matter as allegedly there is no living on the property but 4 cats are there.
