SUBJECTIVE SECTION

SKIN CONDITION (owner received a Warning Letter from SPCA)

OBJECTIVE SECTION

Marshmallow the 3 year old male neutered DSH cat came today for an SPCA complain about a skin issue

Marshmellow has red skin and flea allergy bites scabs, his skin is infected and has secondary infection
The owner is not doing any tick and flea treatment

Plan- the owner went to buy a tick and flea product I put it on the cat

-I treated for secondary infection(antibiotics) and gave preds for the itching
