Today

Good afternoon Darryl,

We trust this WhatsApp message finds you well.

Just herewith an update pertaining to the SPCA's inspection conducted on Friday (04 April 2025). Upon the conclusion of our inspection, I informed you that I'd notify you of any additional concerns needing to be addressed from our side.

We reviewed our footage of the shelter provided to your equine and pigs with the Manager of the SPCA's Farmyard and Horse Care Unit.

Having reviewed the shelter provided, we have reasonably deduced that the shelter currently provided to your equine species and your pigs won't be sufficient during the winter period with excessive rain.

We'll forward some images of adequate shelter via WhatsApp. You will notice that the shelter for equine species has 3 solid sides and that the pig shelters are designed to prevent bedding from becoming wet and water logged. Additionally, there is a vast amount of material online that can assist one in determining correct and adequate shelter for such animals.

Notice to Comply **13153** will be sent to

to prevent bedding from becoming wet and water logged. Additionally, there is a vast amount of material online that can assist one in determining correct and adequate shelter for such animals.

Notice to Comply [13153](#) will be sent to you via email and containing the welfare recommendations pertaining to the shelter provided to your ponies, donkeys, and pigs.

Additionally, we have notified Cape Nature of the indigenous wildlife (angulate tortoises, leopard tortoises, and guinea fowl) currently in your possession and are awaiting their feedback and so Notice to Comply [13152](#) still applies.

Thank you.

Kind regards,
Nicole Venter
