Comments:	I called Marco - 0615214993. He claimed to be the person who bought the property. He got Dr Triegaard out last week Thursday. Dr Triegaard told him what to feed the horses. I asked if they got the food, and he said no they did not. They were planning on getting the food today. I told him this is not acceptable as they should have gotten the food directly after Dr Triegaard was there . I informed him that we will be seizing the horses, and he wanted to know if he could not get the food now and I said no it is too late.
