Comments:	NEW COMPL RECEIVED REF TO INSP 215308: it has been brought to our attention that there were 2 horses on the property but the 1 died because of the youngsters at the property didn't want to get rid of the horse, the second horse is reported to be living in a dirty environment with old and new faeces in the yard and the faeces are bringing flies and the owners are also busy with renovations on the property. The compl says that the neighbors don't want the horse in the yard, and they want the horse to be removed. The horse in question does indeed get food, and the compl is not sure if the horse gets enough water. Please conduct a GLC check at the property.
