

INSPECTOR NOTE

Building:	
Street:	11 KELVIN ROAD
Suburb:	DREYERSDAL
Postal Code:	7945
Date:	2025-04-14
Time:	09:33
Inspector:	TEAH MURPHY

Type:	CALL RECORD - RECEIVED
Follow-Up Date:	2025-04-15
Comments:	receieved a call from paul- 0826506359 who said that spca was at the property with l.e and the dogs weren't removed or taken for euthanasia, he says that spca does nothing and the owners give the dogs to the neighbors to keep while the inspector is at the property, paul says that on Thursday the lady gave a sickly old dog to one of the neighbors, then pauls partner(I assume) took the phone and added more information saying that she knows SPCA has bigger cases to deal with but this owner in particular is indeed hiding the dogs from the inspector and she doesn't even have the authority to keep that many animals on the property and half the time the dogs bark and make a noise the whole night she also mentioned that the owner only has the dogs for her own mental health reasons and not because shes an animal lover. Pauls partner said that she wants spca to remove the dogs because they cant sleep and she demanded that we have the case prioritised and the case regarding the rats that are being bred with that we give her feedback I explained if she is not on the case she will under no circumstances get feedback regarding the matter, she then said that SPCA is an NPO and we are obligated to give the public feedback inwhichi said if she is not the compl she will not getfeedback in which she then said she will log a cruelty case to get feedback. inwhich I said was fine she can do that, I then said to paul and his partner I would pass his contact details on to the supervisor for further discussion regarding the above-mentioned details.
