Subject: Re: INSP210791

Good day

With reference to the above case number I would like to add that I believe the one elderly dog I reported has since died.

The rest of the dogs are tied to a tree on very short leads. They are being fed, but being tied to the tree I am not sure if they can reach the one tiny kennel that is in the field. I cannot gain access to the field as it does not belong to me.

I have notice the owners have also erected a bird or chicken cage very close to the dogs, which I am concerned about as we have a lot of Cobras in the area and being tied to a tree all day the dogs have no way of getting out of a snakes path.

I havent received feedback from previous visits so I am not sure what was said to the owners regarding their dogs. I do believe they are feeding what is there, but the dogs are covered in fleas from what their helper says and as I say tied to a tree all day on a short lead.

Kind Regarda

Avril
