

INSPECTOR NOTE

Building: NDABENI LOGISTICS & TRANSPORT DEPOT

Street: 19 OUDE MOLEN ROAD

Suburb: NDABENI

Postal Code: 7405

Date: 2025-04-03

Time: 17:56

Inspector: NICOLE VENTER

Type: CASE DISCUSSION NOTE

Follow-Up Date:

Comments: I did discuss this case with Emma last month and because the dog received treatment and the warning was complied to, we can close this case. I have requested a meeting with the service provider because I am unhappy that the dog was left to suffer until I noticed its condition . The vet report revealed sever osteospirosis and degeneration of the dog's hind femurs and this condition would have started months ago. During my meeting, I will discuss with the service provider how to prevent this going forward. However, I will log a new case if needs be. The warning was complied with and the dog is no longer suffering. Remaining footage is on the drive / sharepoint. This case can be closed with NFA.
