Subject: RE: COGH SPCA: New submission from Report Cruelty

Dear Tamsyn

Thank you for the response. I appreciated the feedback and sincerely hope that something is done there on their findings (not sure if they saw there was 4 dogs in that small space). Just to bring to your attention that the owner may not be revealing all to the inspectors. She personally told me on the day that I caught dogs that she had no food and that the water and electricity was cut. She was also very much under the influence on that day and the dogs scared to go back into the yard. I understand that the owners of the place she is staying are trying to have her evicted. My concern is that if she cannot look after herself then the dogs are not being cared for. She has asked the neighbours for water and food for the dogs. I have also now been informed that she also breeds with the dogs.

Please keep me updated with the follow up.

Kind regards
