Comments:	Hope has been returned. The aftercare was explained to Sandra and she was provided with the after care sheet Dr Tutt typed out. I gave her Hope's medication and told her to not use it but just keep it in case it would be needed when Hope is collected on Monday, 28 April 2025. Sandra signed and agreed that Hope will be collected on Monday, 28 April 2025 for a check up and thereafter for sterilization.
