Type:	CALL RECORD - RECEIVED
Follow-Up Date:	
Comments:	Received phone call saying they checked the dog and it doesn't need to go to the vet because it is an old wound that has healed. I said they could send us footage to review and consider if vet attention is still required. The person then said that we issued a non-valid warning to take the dog to the vet which almost cost them money for n reason. I reiterated that us accepting that they send us footage is to determine whether or not the dog still needs to be seen to by a vet and that our warning still applies.
