| Type:           | CASE DISCUSSION NOTE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Follow-Up Date: |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Comments:       | <p>As agreed with Emma, instead of prolonging a trial by correspondence with Renier, I simply conducted a follow up inspection and with the dog no longer appearing to need vet treatment, this case can be closed with NFA.</p> <p>I will proactively arrange a meeting with Tackle Hoff K9 to establish a working relationship and prior to logging further proactives as having a copy of the relevant PAPA has revealed other sites where they have dogs. I would like to log a string of proactive security dog inspections in the areas and that focuses on one service provider at a time.</p> <p>However, for now, this case can be closed with NFA.</p> |
