Comments:	I called the owner and explained that we have not yet gained full access to the property to examine all the dogs on the property and the conditions under which they are so kept. I then asked him when he will be available to do the inspection and he wanted to know why and I explained again to him that we need to get full access to the property and do the inspection. He told me that we waisted his time and money with his old dog that PDSA said there was nothing wrong and was just old that is why the dog is underweight. I told him that is fine but we still need to gain access to the property. He said no he will not let us gain access. I asked him multiple times if he wants us to get a warrant then and he responded by saying yes each time. He was also swearing by the word "fuck" multiple times and was also shouting over the phone at me. In my opinion we should apply for a warrant as the owner has said over the phone to me that he will not let us onto his property and that even if we come with a warrant he won't allow us access.
