Follow-Up Date:	2025-04-14
Comments:	Jason said Julian and Mark S already went to this hawking site this week. I had to execute a warrant and confiscate dogs and will most likely not get to this case today. I also had to meet with an external vet this morning. I am now going to prioritize a pet shop at Mithcells Plain Town Centre first as there are compromised animals there. To be rescheduled next week, especially because we had guys there already.
