Subject: RE: CoGH-SPCA: New submission from Report Cruelty

I am happy to provide you with feedback again... the inspector was there on the 3rd where he met with the father in law. He observed the dogs free roaming, the 2 adult dogs are in fair to good body condition, the juvenile dog appears to be lean but in fair condition, water and shelter is available and the living environment was cleaned. The inspector then added a note to the case to say that he will arrange sterilisation for the owner within next week however, if the owner refuses to have he dogs sterilized then we will pass it on to law enforcement to enforce unsterilized animals on the property over the age of 6 months.

kind regards

Teah
