Comments:	The Alpaca's has been at the school for years now. It was unclear if they were there before the school or if one of the staff brought them there. The Alpaca's are not used for any exhibition, the way they explained it is that they are 'pets' that will live out their days at the school. They are not used for any exhibition purposes and there is no financial gain regarding the Alpaca's. Due to the above, I do not believe that they school require a PAPA license and therefore, this matter to remain closed.
