Comments:	I did this inspection the other day but Jaosn had not out it on my name yet and I had to cut my inspection short to bring an injured Egyptian Goose to base for Wild. I am scheduling this case for tomorrow (weekend) because I will ensure all my WT cases are update tomorrow when nobody can interrupt me or ask me to do things. So yes - it is scheduled for Saturday on purpose. For me to update my admin as this case was not on my name when I did the inspection.
