Comments:	Judy sent me the number of Baker & McVeigh Equine Hospital Cape (021 552 3450) and told me one of their veterinarians euthanased her horse on Tuesday becasue unfortunately there was no more treatment for the horse. I called the vet spoke to Jane, the receptionist, and she confirmed that the horse Mr. President was indeed euthanased on Tuesday, 6 May 2025. She couldn't send me proof thereof becuase the vet is currently in China and he has the reports - I will check in with him in 3 weeks for the proof. Judy further said that she found a place for the cattle to go but she would want to keep the one with the calfe but they will have to be tethered. I informed Judy that this will not be permitted by the SPCA and she is not allowed to do so - which she has received a warning for. I will follow-up in 3 weeks with the vet's regarding the proof for the horse and then the area inspector can do the physical inspection to see if the cows are still free roaming etc.
