| **Follow-Up Date:** | 2025-05-03 |
| **Comments:** | COMPLAINT RECEIVED VIA EMAIL:<br><br>From: Melissa Van Wyk <hospital@animalrescue.org.za><br>Sent: Saturday, 03 May 2025 09:06<br>To: Inspectorate – Cape of Good Hope SPCA <inspectorate@spca-ct.co.za><br>Subject: Parvo puppy<br><br>Good day Inspectorates<br><br>We had a client on Wednesday with a puppy which tested positive for parvo . As per protocol we explained the options of treatment and the prognosis with the financial responsibility vs humane euthanasia. The client did not want to do either of the 2 options.<br>We denied them from leave the premises as the dog was critical and will not survive without treatment . The client then agreed to treatment.<br>However, he has not returned for follow ups. We are concerned about the well being and suffering of this puppy and suspect the owner only agreed to initial treatment to get away and now avoid further financial responsibility for further treatment.<br><br>Please could we request you to take on this case as refusal of medical treatment to a sick dog.<br><br>Owner: Mogamat Alie<br>ID: 9610265070083<br>Address: 16 Ambrela Street, Pelican Park<br>Patient: 3month old, brown, intact female, pitbull |
