Subject: A case of animal cruelty

Morning Mark, I trust that this message finds you well. I think I have informed you that some of my cattle were relocated to Eastern Cape. Unfortunately four (4) were not loaded because thiat (mother and father) who are owners of that black & white bull that wss once impounded with my cattle disturbed loading proceedings which caused other cows to run away. Whilst people were busy loading the cows his shepherds removed one of her cows leading to running away of other cows from my stock. Now she has sent me this photo informing me that this cow is dead inside her kraal. I think SPCA authorities have a duty to protect animals against cruelty under the constitution of this country. I believe you are the custodians of that process. I therefore fill that this case should be investigated by SPCA. Please advise as to who can be contacted and kindly provide contact details. Thanks.
