General Report Comments: Upon follow-up I met with owner and he showed me the dog which appeared to be gaining weight slowly and is better than the last time I saw the dog. I asked to see the food which he showed me the dog eats monte and me (montego adult), I advised that he buys puppy as it contains high protein. The is shelter available and water too for the dog, I also advised that of the dog doesn't improve end of this month he needs to surrender the dog over to the spca
