CHECKLISTS

General Report Comments: Upon follow-up I shouted at the gate but no one came out of the property, I observed the dog in question free roaming on the property with access to drinkable water and shelter available however the dog appeared to be underweight still as ribs are still visible. I gave the owner a long time to feed the dog adequately which it is not gaining weight and I'll issue a final warning for him to seek veterinary attention for such animal without any delays to determine the cause of what is it making not gain weight as he had food upon the lat time I was in the property, if he can't seek veterinary attention the he has to surrender the dog over to the spca
