General Report Comments: Upon arrival at the premises, accompanied by Cadet M. Alexander, we knocked and called out, but received no response. Despite this, we were able to observe the dogs from outside the property boundaries.

An inspection was conducted, during which it was noted that the second dog previously observed had been removed from the property. We proceeded to the rear of the premises where we observed an adult female pitbull, tan in colour, secured on a static chain. The dog had access to water and shelter; however, the shelter was deemed inadequate. The area where the animal was confined contained various rubble and debris, posing a potential hazard to the animal's well-being. The dog also appeared to be slightly underweight.

All concerns were noted and addressed in a written warning, which was affixed to the property gate.
