General Report Comments: The entrance/location of the property is adjacent to a Grey cement wall and the entrance to the property is through a blue shade cloth gate. There is a green shade cloth "wall" right next to the gate. The GPS takes you to the property before this one.

There was a little kid, in a nappy that told me that his granny was home and he went to call her. She was reluctant to give me her name, but she did tell me that the dogs belonged to her sister and her son. She could not tell me how many dogs were on the property. At the time of my inspection, I saw 2 your puppies playing amongst the clothing scattered on the ground. There were 2 pieces of wood, with nails protruding from it, which I removed and placed in a rubbish bin.

The lady told me that her sister, the owner, should be home soon.

I left her with a 24 hour contact warning for her sister/the dogowner to contact the SPCA within 24hrs regarding the Animals in her custody, care or possession. I included our After Hours number. The lady did not want to sign for the warning but assured me that she would give it to her sister. It appears that there is more than 1 family/dwelling on this property.

24hr warning issued for the homeowner to contact us.
