General Report Comments: Upon arrival I met with owner and she showed me the animal in question which I saw that the egg came out and it was alert however I still advised that they still seek veterinary attention to ensure no underlying issues with the tortoise. I issued a NTC for the owner to seek veterinary attention for the animal within 15 hours. I asked her about having a permit for the tortoise and she does not have one and she said she will apply for the permit, after we follow-up we need to refer the case to Cape Nature.
