General Report Comments: Upon inspection, i met with Laetitia who told me that the dog belong to her husband but that he is at work. There is 1 dog and 1 cat on the property but we couldn't find the cat at the time of my inspection. The dog was free roaming when I arrived. Laetitia confirmed that they dog sometimes tie the dog. She stated that when they leave to go somewhere, the dog jump over the fence and follow them and that the dog attack people. While I was conducting my inspection, i saw the dog jump the fence. The dog has access to adequate shelter but not when he is tethered. The dig had access to water and a clean living environment. The dog appeared in a fair condition.

I issued a warning to install a running chain within 14 days and ensure that the animals have access to adequate shelter at all times
